

# Demo Reel Shot List

## The Cocoon

Toonboom Studio 4.5 :11 sec

This piece was an entry for 11 second club's november 2009 competition. It was placed 92 out of 246 entries and recieved 4.4 stars out of 11.

## Drama Mom

Toonboom Studio 4.5 :11 sec

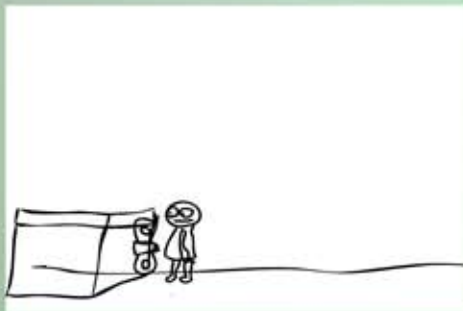

This piece was based off the audio downloaded from the 11 second club's september 2009 competition. Just a representation of an unruly teenager against an angry mom.

## Dee Walkcycle

3ds Max 2009 :07 sec

I used Manuel Sierra's Dee rig to make a cartoony walk cycle. There is no arms on the character so I can really focus on main parts of the body. This was also practise for me to really get to know the curve editor in 3ds Max.

## The Present

Toonboom Studio 4.5 :11 sec

This piece was an entry for 11 second club's july 2009 competition. This was my first time actually using ToonBoom Studio and didn't have a tablet at the time. It was placed 33 out of 62 entries and recieved 4.33 stars out of 11.

## Dee Runcycle

3ds Max 2009/After Effects CS4 :07 sec

Here's another one of Manuel Sierra's Dee Rig but this time I made a convincing run cycle. Like the walk cycle, there's no arms on the character to really focus on the main parts of the body. I also composited and color corrected the piece in After Effects.
